Teamwork Discussion Sheet

Project 1

Student name	Student ID	Items covered	Contribution on each item (%)	Overall Contribution on the deliverable (%)*	Signature
Hanan Sayed	40316818	• Student course management pages (add/edit/delete)	25%	25%	
		• Instructor course management forms	25%		
		• Login and Sign up pages	25%		
		• Assessment categories with checkboxes	25%		
Yuqian Li (Rachel)	40330774	• Admin manage courses page (delete/enable/disable)	20%	25%	Yuqian Li
		• Student track grades page	20%		
		• Base CSS styling (00-admin page.css, 01-student page.css, index.css)	25%		
		• Main navigation and portal pages (index.html, student side.html, admin side.html)	20%		
		• Team documentation	15%		
Xinlei Tian (Zayne)	40293328	• Drafted initial requirements and feature list	20%	25%	
		• Dashboard page with 4 course cards	30%		
		• Progress bars for each course	25%		
		• Edit panel with assessment dropdown	25%		
Yufeng Wang	40247565	• Student-Assessments.html (course cards grid)	20%	25%	
		• Assessment structures display	20%		
		• Admin-Management-Assessments.html (admin assessment editor)	20%		
		• Light/Dark theme toggle	20%		
		• Slide-in drawer for editing	20%		

** The sum of ratios in this column should sum to 100%*

Discussion:

Our team held three meetings throughout Deliverable 1.

Meeting 1 (First week): We distributed tasks and confirmed which pages each member would be responsible for. Hanan took responsibility for student course management pages (add/edit/delete), instructor course management forms, and login/signup pages. Rachel focused on admin manage courses page (delete/enable/disable), student track grades page, and agreed to create the CSS files. Xinlei volunteered to develop the dashboard page. Yufeng handled the assessment pages with student and admin views.

Meeting 2 (Second week): We reviewed each member's draft code and discussed the CSS style to ensure consistency across all pages. Rachel shared the base CSS files which were then adopted by all members. We made adjustments to ensure a unified look and feel throughout the project.

Meeting 3 (Third week - final review): We examined all the final code together, identified areas that needed improvement, and worked on fixing issues. We tested navigation links between all pages and made sure everything was properly linked. Several modifications were made during this meeting to ensure all pages work together seamlessly.

The work allocation was fair and all members respected their deadlines. Everyone contributed to discussions and helped solve problems during the final integration.
